TRACK 8 - Transcript

Tommy: Hello, Linda! Guess what? I am going on holiday to The Iguazú Falls next year if everything is OK by then. I am so excited!

Linda: Great! I'm happy for you! Who are you going with?

Tommy: Thanks! I'm going with my mum and my brother.

Linda: Excellent! Have you been there?

Tommy: No. it will be my first visit.

Linda: Oh, it's a fantastic place! I'm sure you'll love it!

Tommy: I'm sure I will. What do you know about the Falls? Have you ever been there?

Linda: Yes, I went there two years ago. They're one of the most impressive natural landmarks in Argentina. You should definitely visit the national parks that protect the waterfalls to really enjoy all the natural beauty that the area offers. One of the most interesting attractions is Garganta del Diablo (the Devil's Throat), the highest point of the falls which is 82 metres high. You can have access to the falls if you take an ecological train that allows you to explore the jungle and observe the local fauna.

Tommy: That sounds terrific!

Linda: There are also some trails that lead to these magnificent waterfalls. You shouldn't miss them!
