TRACK 7 - Transcript

Connie: *I was born in Black Mountain and I have always lived here. I know this is a small and quiet place and there isn't really much to do here, but I like my town. It has everything I need: good weather, fresh air, beautiful mountains and lakes, nice shops and lots of green areas where you can walk around and relax. I know there are better job opportunities in big cities like LA, New York and Miami but I'm very happy with my job in this area. I work as a vet and I also have my own pet shop in the city centre. I know I would never leave Black Mountain. I'm too much attached to it. My friend Simon moved to LA last year. I know he's happy but crime, violence and traffic congestion in the streets of LA are worse than in some big cities in the US. I really don't know if Simon made the right decision in going to live there. I miss him a lot!*
