

# Unit 4 Reading Worksheet 1

Name \_\_\_\_\_

## 1 Look, read and circle. What's your opinion?

I like buying food at **supermarkets** / **farmers' markets**.

## Supermarkets vs. Farmers' Markets

There are supermarkets and farmers' markets all over the world. They can be very different, but they can be similar, too. There are advantages and disadvantages to both.

### Supermarkets

Advantages: They are convenient. They have got a huge variety of products and they are open all day. Sometimes they're open all night, too! They can be **inexpensive**.

Disadvantages: They are very big and they can have long **queues**. They can sell a lot of processed food. They aren't always eco-friendly. Fruits and vegetables are not always **fresh**.

### Farmers' Markets

Advantages: They have got fresh and local food. They help local and small **farms**. The farmers can tell you about the food. They can have unique products.

Disadvantages: There aren't farmers' markets every day. There aren't any farmers' markets in the winter. They haven't got a huge selection of products. They can be expensive.

## 2 Read and circle to complete the sentences.

1. Farmers' markets can be **cheap** / **expensive**.
2. Some supermarkets have got a lot of people waiting to **buy** / **tell** things.
3. You can buy a huge selection of products at a **supermarket** / **farmers' market**.
4. There are no farmers' markets in the **summer** / **winter**.
5. Supermarkets are very **convenient** / **eco-friendly**.
6. Fruits and vegetables at some supermarkets are not always **convenient** / **fresh**.

## 3 Read and classify the words.

big convenient fresh expensive inexpensive unique

Supermarkets	Farmers' Markets
big	

**4 Stop and Think!** Where does your food come from?

## Glossary

**inexpensive:** not expensive; cheap

**queues:** people waiting to buy things

**fresh:** good quality to eat; not old or rotten

**farms:** places with animals and crops
