TRACK 5 - Transcript

I went to a summer camp for the first time in my life when I was 12 and I stayed there for two weeks. I tried some extreme sports like go-karting and whitewater rafting. It was great fun! The only bad thing was that I got hurt when I was horseback riding. Nothing serious, really! The horse started to run really fast and I fell off. I was really scared but luckily it was nothing serious. In general, the tents where we slept were OK and the food was nice, but I didn't like some of the summer camp coordinators. I made many friends from different parts of the country and I still keep in touch with some of them. We're all planning to go together next year. But we want to choose a place that everybody likes! We'd like to go scuba diving or snorkeling next time. That would be really cool!
