TRACK 6 - Transcript

Julia: *Well, it was a terrible experience. On the day of the accident, Bethany and I got up early and we had breakfast together. After that, Bethany took her surfboard and went to the beach. Two hours later, I heard an ambulance siren and I ran to the beach to see what was happening. It was horrible! I don't want to remember that day... Bethany lost her arm and she was in hospital for a week after the accident. But little by little, she started to feel better and she didn't give up surfing. She continued with her life... She can't live without surfing, it's part of her life... Sharks are terrible creatures and even now I'm really afraid of them. I think they are very dangerous... and every time Bethany goes to the beach I feel worried about her...*
